Garden Arbor - Nature's Best Photography Contest

Featured Photograph

Garden Arbor

*Last September I entered the photograph shown above in the **Nature's Best Backyard Photography Contest**. For those of you not familiar with Nature's Best Photography, the following is an excerpt from their website:*

Nature's Best Photography print magazine is a large-format, award-winning, showcase of nature as recorded by the world's leading professional photographers, naturalists, adventurers, as well as new, emerging photographers. You will find images and the stories behind the shots on topics such as: wildlife, landscapes, plant life, travel, how-

to photo tips, inspirational essays, and winners from our international photography competitions!

In February I was notified that out of nearly 2,000 entries, my photograph was one of 60 semi-finalists. In April, I was informed that **my photograph was one of the winners** and will appear in their publication to be released in June. Their publication can be purchased at most major bookstores and gift shops around the world. You may also order the publication from their website by clicking on **[Nature's Best Photography](#)**.
